COMMUNITY RESOURCE GUIDE

Project Home is here to provide resources to help the community keep their Family together and/or help with rehoming their pets if necessary.

Please be sure to change your pets microchip information over to the new owner as soon as possible, even if you've rehomed them - if their chip information is still yours - you will be recognized as the legal owner. Please do your research when rehoming your pet to ensure they are entering a safe environment.

We cannot guarantee that the listed rescues will respond or be able to take in your pet. Every rescue has their own intake protocols, limitations, and requirements. All rescues listed are 501(c)3 registered rescues and are active as of 10/09/2026.
